The Background

The Background

For the continuation of the race, since the beginning of human consciousness, through continuous optimization and application of tools, gradually discover the mystery of the earth.

Since Columbus discovered the drift of continents, humans have not realized that the earth's continents have been divided. With the progress of human civilization and the constant breakthrough of science and technology, mankind is about to enter the digital era.

As Mr. Vitalik Buterin and others proposed to integrate the "soul" into the DAO, a decentralized society based on an abundant and diverse ecosystem was formed. Door Block Dao sees new opportunities on the horizon.

The Background

**There is a Taoist saying: Two in one, three in two, three in all.
It seems that humanity will break through to the three realms, and peace will be restored in time and space again!**

First – The Sky

The Sky refers to the outer universe. With the exploration of astronomy and astrology and the perfection of the universe equation, some human beings gradually turn their eyes to outer space for racial competition to find more available materials for human beings, new space for human survival, and the origin of the universe!

Second – The Human

The human refers to the human universe. With the continuous improvement of material level, the demand of humans for the spiritual world is constantly improving as well, Human beings urgently need to explore inside themselves, the exploration of the true meaning of life, and finally reach the satisfaction of the spiritual world;

Third – The Earth

The Earth refers to the original universe (Metaverse), which is the exploration of the fusion of man and technology in the current time and space. When the material and spiritual are abundant, how to safely integrate man and technology will become the topic of in-depth thinking and research in the current time and space.

The background is a dark blue, almost black, field filled with intricate, glowing fiber-like patterns that resemble a complex network or a microscopic view of biological tissue. The fibers are thin and interconnected, creating a dense, web-like structure. A large, white, semi-transparent circle is positioned on the left side of the frame, partially overlapping the text. The number '02' is rendered in a clean, white, sans-serif font, centered in the upper half of the image.

The Birth

The Birth

Door Block Dao

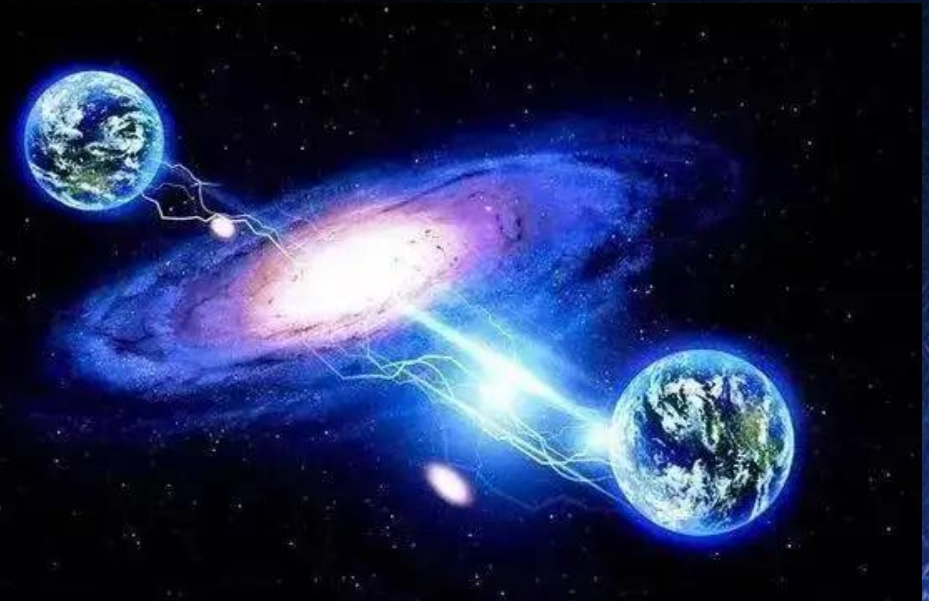

Referred to as DBD, is an investment incubation DAO jointly initiated by Capital Advisors (RBR), the largest hedge fund in Switzerland, and several senior people in the area of philosophy, science and technology, and economy, focusing on the industrial incubation of the Metaverse.

The Birth

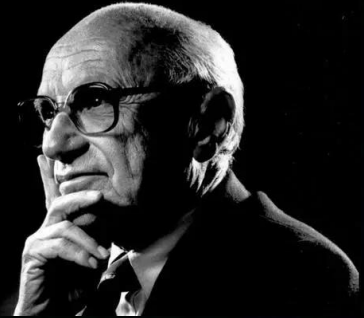

Door Block Dao believed that primitive people formed primitive tribes due to the obstacles of geographical factors, which led to the current geopolitical split in the process of the continuous development of human civilization.

In the digital era, the planet through the WEB technology series to become a "global village", and people will be divided into countless new Web tribes according to their interests.

The gathering of human beings will produce streaming, and then the integration of interest and hobby industry will give birth to new economic rules and financial order.

The Birth

Mr. Milton Friedman

The Founder of modern monetary theory and a Nobel prize-winning economist, once stated that the rules of economic mechanism should prevail over all power. He believed that only economic freedom could ultimately lead to political freedom, and people could live freely.

Mr. Thomas Piketty

In the book “Capital in the Twenty-First Century”, Thomas Piketty, an economist, focuses on statistical arguments for economic inequality. Economics is a discipline derived from the interaction of Capital and Labour.

In the traditional economy, traditional capital will increase in value much faster than labor capital, resulting in many social inequalities.

**Development
Planning**

Development planning

Stage 1 (Gathering people) :

Through the mechanism model of the original DeFi+DAO+NFT and the principle of behavioral management, Door Block Dao increases market liquidity by positive expansion and forms a strong consensus with the excessive turnover rate, so as to gather a group of people with lofty ideals with similar world outlook, outlook on life and values and incubate the new economy circular industry of the original universe together. Let the kindness of human nature become the driving force of economic operation!

When the number of coin holding addresses reaches 18,000, the member management system of the DAO organization will be started, the symbol of the core members will be NFT, and the development progress of the organization will be jointly governed through the consensus mechanism.

Development planning

Stage 2 (Gathering resources) :

With the development of commercial form, a large number of middlemen and micro enterprises will be banned by scale effect enterprise platform and independent IP private domain stream platform, the whole stock market will have a large number of idle resources, and a group of people full of fear for the future, but this part of the group even if the seller is also consumers!

When the number of coin holding addresses reaches 90,000, the circulation business system of stock will be initiated, and the self-operating system of double spiral based on trade and activity will be initiated.

Development planning

Stage 3 (The incubation) :

When the number of coin-holding addresses reaches 810,000, Door Block Dao will officially enter the incubation era, and people's interests and value distribution will be the core idea.

Will be targeted at the following related industries as the first batch.

1. Non-replicable scarcity
 2. High frequency consuming industry
- The merits and demerits of the division are not clear, and other conditions of the industries
